The better market sentiment allowed us to achieve higher consolidated sales. Revenues increased by 9.9% primarily due to an increase in shipments of scrap metal, billets and finished products. This was offset by the decrease in prices therefore, the revenue dynamics of our main business segments tonnage-wise at 13.9% surpassed the value-wise increase at just 8.2%. Cognor saw a significant increase in gross profit – by PLN 43.5 million and 42.2%, EBIT – by PLN 37.9 million and 143.9% and EBITDA – by PLN 35.9 million and 55.1%. The positive development of spreads (except for billets) was responsible for PLN 2.0 million of the increase. Another incremental effect at the amount of PLN 11.2 million came from the reduction of flexible costs of our crude steel production. The remaining portion resulted primarily from higher shipments. Substantially all of our revenues and

profits were generated at the level of Subsidiary Guarantors, as defined by Cognor's senior secured notes' indenture (the Senior Notes, the Indenture). The net result was positive and higher by PLN 53.4 million as compared to 2013

The following table presents the average scrap metal, billet and finished product prices for both of our steel plants. The spreads are calculated by way of subtraction of the scrap metal prices.

2. Main Metrics

MAIN METRI	CS	Y 2014	Y 2013	Y 2012
Liquidity ratio		1,79	0.61	1.86
Quick ratio		0,81	0.30	1.11
Inventories turnover	days	81	72	50
Receivables turnover	days	48	53	47
EBITDA margin		7,1%	5.0%	4.7%
Net profit margin		0,4%	-3.7%	0.0%
Equity	ф00 PLN	187 286	129 134	176 842
Net debt	ф00 PLN	467 619	554 805	513 697
Net debt / EBITDA		4.6	8.5	7.7

Liquidity metrics improved very significantly following the completion the refinancing. We regard them as being at optimal levels.

Turnover of inventories increased by 9 days while turnover of receivables went down by 5 days. The increased level of inventories was due to the increase of production of semi-finished and finished products.

The profitability metrics reached much higher levels, both of them positive.

A significant positive change relates to Company's leverage. Higher LTM EBITDA and lower net indebtedness helped to push the net debt/EBITDA ratio down below 4.6.

3. Perspectives of development

Further development is conditioned by both the market environment, as well as internal activity. Within the framework of the latter, which we have an influence on in terms of a certain time perspective, it is necessary to list the steps to be taken aimed at reducing the costs of production, increasing the product range and further improvement of the quality of the goods on offer. Significant progress in all of these areas is dependent on capital expenditures. The Group has prepared a mid-term project of modernization for the technological equipment at our disposal that could improve our operational activities in a most significant manner in all the three key aspects.

IV. Description of significant factors of risk and threats with the definition of the extent to which the Capital Group is at risk.

1. Risk of fluctuations in currency rates:

The Group is susceptible to the risk of fluctuations in currency rates with relation to sales, purchases and financial obligations denominated in other currencies than the functional currency. The currency risk mainly relates to the Euro currency.

2. Price risk:

The Group is not susceptible to the price risk relating to capital shares and is classified in the report on the financial situation as available for sale valuated in equitable value by means of financial results as it does not possess such financial instruments. The Group is also not susceptible to the price risk relating to mass goods.

3. Risk of fluctuations in interest rates on equitable values and cash flows

The Group does not possess significant financial assets other than pecuniary means and their equivalents, thus the revenues of the Group and the cash flows from operational activities are to a large extent independent of fluctuations in the market interest rates. The Group is more susceptible to the risk of interest rates in terms of loans and credit. Credit loans granted at variable interest rates place the Group at the risk of interest rates on cash flows. Credit loans granted at constant rates place the Group at the risk of equitable values of interest rates.

4. Credit risk:

Credit risk is the risk of the Group incurring financial losses as a result of the failure of a client or trading partner as a financial instrument to fulfil its contractual obligations. Credit risk is particularly associated with receivables from clients and financial investments.

Financial instruments, which potentially jeopardize the Group with a concentration of credit risk particularly encompass the pecuniary means and their equivalents, as well as trading receivables and others. The Group deposits its pecuniary means and their equivalents in financial institutions possessing a high credit rating. Credit risk associated with receivables is limited as the clientbase of the Group is wide, thus the concentration of the credit risk is not significant.

5. Risk of losing solvency:

The risk of losing solvency is the risk of the lack of possibility of repayment occurring in the case of the Group with relation to its financial obligations at the moment of payment due date. Activities aimed at limiting the subject of risk encompass the appropriate management of financial solvency through the means of ensuring where possible that the Group shall always have sufficient solvency in order to be able to repay its obligations at the moment when this is required, both in normal and in specific conditions without incurring losses or jeopardizing the Group with a loss of reputation.

6. Risk of continuation of activities:

In February 4, 2014 we carried out the refinancing transaction that has significantly improved the short-term liquidity position and removed any doubts with regards to the Group's going concern. While the Group has access to sufficient financing sources we will endeavor to gain wider access to working capital bank facilities to get even more financial flexibility for any future general corporate needs.

V. Indicating the proceedings before the court, the appropriate body for arbitration proceedings or the body of public administration taking account of information in the following areas:

- a) Proceedings relating to obligations or outstanding debts of the issuer or entity affiliated to it, whose value constitutes at least 10 % of the equity capital of the issuer with the definition: the subject matter of proceedings, the value of the subject matter of the dispute, the date of commencing the proceedings, the parties to the proceedings commenced and the position of the issuer.
- b) Two or more cases of proceedings relating to the obligations and outstanding debts, whose combined value constitutes respectively at least 10 % of the equity capital of the issuer, with the definition of the combined value of the proceedings separately in a group of obligations and outstanding debts, together with the position of the issuer with relation to this case and with regard to the largest proceedings in the group of obligations and the group of outstanding debts with an indication of their subject matter, the value of the subject of dispute, the date of commencing the proceedings and the parties to the proceedings commenced.

The Group is party to a range of court proceedings, the majority of which it participates in as the plaitiff. Cognor has not been charged in any singular or group proceedings which together could significantly affect their financial results or level of obligations. There are two proceedings before the courts relating to receivables which fulfil the criteria of essence:

In 2009 Złomrex S.A. (currently HSJ S.A.) received an offer from the Republic of Croatia pertaining to the termination of share purchase agreement based on which Cognor S.A. in 2007 acquired shares in Zeljezara Split steelworks from the Croatian Privatisation Fund. By exercise of this offer the Government of Croatia was to repurchase all of the shares held by HSJ S.A. for the amount of EUR 1.00 and purchase all of the claims of HSJ S.A. owed by Zeljezara Split for the price of EUR 10.0 million. In spite of the acceptance of the offer by HSJ S.A. and the commencement of drafting of the respective documents, the Croatian Government at the turning of 2009 and 2010 asked to postpone drafting and signing of the agreements and later in 2010 finally decided to refuse to enter into agreement. In 2011 a bankruptcy of Zeljezara Split was declared.

In 2012 HSJ S.A. filed a notice of arbitration against the Republic of Croatia. In the notice HSJ S.A. stated the minimal value of the claim at the amount of EUR 10.0 million. Supported by the positive opinion of legal counsel, that value was previously recognized in Cognor's financial statements.

In response to the notice of arbitration, the government side entered into negotations on conciliatory solution of the dispute. Despite a number of meetings, the negotations did not lead to agreement. In 2014 Cognor S.A. decided to reassess its legal position and ordered additional analysis of legal advisors. In the light of received opinions, Cognor S.A. assessed that positive solution of the claim pertaining to the offer of EUR 10.0 million is unlikely. For the second basis for the claim, relying on the terms of the bilateral investment treaty between Poland and Croatia, where the maximal compensation for Cognor S.A. could reach up to approximately EUR 50.0 million, the probability of positive outcome for the Group has been determined up to 50%.

In this light, taking into consideration the elapsed time so far, the expected further duration of legal proceedings and change in assessment of positive outcome for Cognor S.A. to prevail, it was decided to recognise an impairment allowance of PLN 42 623 thousand. As the settlements with the Republic of Croatia have impact on the transactions with the owner of the Parent Company impairment allowance, in the part that was assumed as a correction of these transactions (PLN 39 215 thousand) has been recognised directly in the Group's equity. Despite current change of chances for success, the abovementioned decision does not have any impact on dedication of Cognor S.A. to continue litigation along both of the available paths.

- A claim against the companies of Eff Eins and Eff Zwei from the Group of Mechel relating to the execution of obligations resulting from the agreement dated 4 February 2011 relating to the sale of shares in the company of Cognor Stahlhandel GmbH and the payment of the amount of 7.2 m PLN. On 4 November 2014, Cognor SA signed an agreement with the Eff eins Beteiligungsverwaltung GmbH and Eff zwei Beteiligungsverwaltung GmbH (group Mechel) in connection with a dispute concerning a contract of sale of shares in Cognor Stahlhandel GmbH (the Agreement) dated 4 February 2011 and still to be paid a sum of PLN 7 260 thousand. Taking into account the estimated time and cost of further arbitration procedures, as well as uncertainty about the Mechel group's ability to repay this commitment in the future, the Board decided to sign an agreement on the terms which Cognor SA takes the amount of EUR 1 215 thousand, as the final payment resulting from the Agreement. Accordingly, the parties decided to extinguishing all claims and rights arising under the contract, and thus the remaining payment has been written, which resulted in a loss of PLN 2 278 thousand.

VI. Information about the basic products, goods or services, together with their valuation and quantitative specification, as well as the proportion of particular products, goods and services (if important), or their groups in terms of the total sales of the Capital Group, while also fluctuations in this area in a given trading year.

The main companies creating the Capital Group operate on two important steel markets: the production of semi-finished products and finished goods, as well as sourcing and trading in scrap metal. Production of semi-finished products and finished goods is dealt with by the following: Huta Stali Jakościowych S.A. (HSJ) and Ferrostal Łabędy Sp. z o.o. (Ferrostal), together with its affiliated companies ZW-Walcownia Bruzdowa Sp. z o.o. (ZW-WB) and ZW Profil S.A. (PROFIL). The trading in scrap metal is run by Złomrex Metal Sp. z o.o. (Złomrex Metal).

The basic products of the companies belonging to the parent company are as follows:

XV. Explanation of the differences between the financial results indicated in the annual report and the previously published forecasts of results for a given year

The Group has not published the forecast of results in a given year.

XVI. Evaluation, together with its justification with relation to managing the financial resources, with particular mention of the ability to comply with the obligations taken out and a definition of the possible threats and action that the issuer has taken out or intends to take out with the aim of counteracting its danger

The management of financial resources was correct and effective in 2014. The activity of the Group was featured by good indicators in terms of the rotation of stocks and receivables as a result of which, the outflow of cash to working capital was insignificant. Steps were continued with the aim of selling off unnecessary elements of fixed assets. The Company maintained a significant balance of cash on its bank accounts. The main reason for this policy was to secure the capital resources for the deadlines of repaying the short-term financial obligations due in 2014 that are the result of bank loans granted.

In the perspective of the year 2015, the Management of Cognor S.A. does not visualize any threats which could cause the lack of possibility to comply with the financial obligations undertaken.

XVII. Evaluation of the possibilities of the realization of the investment intentions, including capital investments in comparison with the magnitude of the resources in possession, by taking account of the possible changes in the structure of financing these activities

In the assessment of the Company, the possibility of the realization of the investment intentions should not be at risk given the new stable and long-term financing platform that Cognor has acquired since February 4, 2014

XVIII. Evaluation of the factors and untypical events having an impact on the result of activities on the trading year with the specification of the extent of these factors or untypical events on the result achieved.

XIX. Characteristics of the external and internal factors essential for the development of the Capital Group, as well as a description of the perspectives of development of the activities of the Capital Group at least until the end of the trading year which takes place after the trading year for which the financial statement was prepared and included in the annual report, by taking account of the elements of the market strategy worked out in it

External factors:

- pace of development of the economy,
- investment outlays in construction,
- realization of the programme of building roads and motorways,
- ability to acquire and utilize EU funds,
- world demand for steel products,
- shaping the exchange rate of the Zloty with the Euro and the US Dollar.

Internal factors:

- success in the continuation of organic development in the appropriate policy of investment outlays on the means of production,
- gaining of new markets; launching new products,

Mr. Przemysław Grzesiak, the Vice-Chairman of the Board of the parent company, possesses 2.84% of shares in the company Cognor SA, providing 3.81% votes at the AGM.

XXIV. Information about agreements known to the issuer (also including those entered after the balance sheet day), as a result of which the proportion of shares held by existing shareholders and bond-holders may change in the future

On 19 August 2011 Cognor S.A. executed resolution no. 13 at the shareholders' meeting dated 14 March 2011 and issued 6,622 subscription warrants of B series. These warrants authorized the accession of 66, 220, 000 no. 9 shares emissions. In the powers of the resolution of the Management dated 13 September 2011 the warranty was accessed in the following way:

- Złomrex S.A. (currently Huta Stali Jakościowych S.A.)- 6,086 warrants;

- the remaining individual shareholders- 536 warrants.

As a result of the agreement entered on 20 September 2011, Złomrex S.A. sold its warrants to the company PS HoldCo Sp. z o.o., and on 3 February 2014 PS Holdco Sp. z o.o. sold these warrants to Cognor International Finance Plc, a company established in UK, a subsidiary directly from Huta Stali Jakościowych S.A.

By way of adopting another resolution the shareholders meeting decided to split the warrants of B series by 10,000 and change the strike price to pln 2,35. As a result of that change each warrant grants a right to subscribe for one capital share of Cognor S.A.

On December 30, 2013 the shareholders' meeting of Cognor S.A. has decided to issue 200 new subscription warrants of C series each of them allowing to subscribe for one capital share at the price of pln 1,0 million. The warrants were issued exclusively for PS HoldCo Sp. z o.o.

On 4 February 2014, Cognor International Finance Plc, (a direct subsidiary from Huta Stali Jakościowych S.A.) issued Exchangeable Notes.

The Exchangeable Notes have EUR 25 087 003 aggregate principal amount, mature on February 1, 2021, interest will be payable semi-annually in arrears on February 1 and August 1 and the fixed interest rate is 5%. The holders of the Exchangeable Notes will be entitled to have their Exchangeable Notes converted into Cognor S.A. new and/or existing shares, credited as fully paid, in the period from March 15, 2015 until the lapse of 6 months following the maturity date thereof. Upon a conversion, Cognor International Finance will have the option to: (i) deliver (or procure the issue or transfer and delivery of) Cognor S.A. shares, (ii) pay a cash settlement amount, or (iii) a combination thereof. Unless previously purchased and cancelled, redeemed or converted, the Exchangeable Notes will be mandatorily converted into Cognor S.A. shares at the conversion price on the Exchangeable Notes maturity date at the conversion price of PLN 2.35.

Following the restructuring of Cognor's indebtedness on 04.02.2014 PS Holdco agreed to transfer all of its warrants series B for the purpose of the restructuring process. Consequently, on 31.03.2014 PS Holdco and Cognor, made the amendment nr 3 to the Settlement Agreement in order to reflect the arrangement of the restructuring in its terms. In particular it was decided that the payment of Cognor's liability shall occur following subscription for warrants series B and series C by PS Holdco and that the total amount of the subscription shall at least equal the price. The deadlines for the PS Holdco's undertaking to increase Cognor's equity and for the payment of the price for shares in Złomrex S.A. by Cognor were postponed to 31.12.2021 when the remaining number of warrants series B surviving the conversion of Cognor's convertible notes, will have become known.

On 13 March 2015, based on the amendment no. 4 to the Settlement Agreement, resulting from the lack of payment of receivable at the amount of EUR 10 million owned from the Republic of Croatia and in connection with impairment loss recognised for the total amount of that receivable in Cognor's consolidated financial statements as at 31 December 2014, the parties decided to appropriately reduce the price for shares in Złomrex S.A. by the amount of PLN 39 215 thousand and to adjust the interests for previous years on the reduced price for the shares in Złomrex S.A. Due to direct connection between the price for the shares in Złomrex S.A. with the value of the subscription for warrants series B and series C described in previous paragraph, the reduction of the price for the shares in Złomrex

S.A. due to impairment loss recognized on receivables from Republic of Croatia was included in Group's equity as an adjustment of transactions with the Owner of the Parent Company.

The reduction of the price for shares in Złomrex S.A. following amendment no. 4 resulted in reduction of reserve equity in consolidated financial statements by PLN 39 215 thousand and recognition of other income in the amount of PLN 6 430 thousand due to adjustment of Cognor's liability related to interest accrued in previous years to PS Holdco Sp. z o.o. on the reduced price for the shares in Złomrex S.A.

Moreover, as a consequence of the amendments no. 3 and 4 to the Settlement Agreement, due to the fact that payment deadline has been postponed till 31 December 2021, the Group recognised liability to PS Holdco Sp. z o.o. related to the discounted value of interest accrued on the unpaid price for the shares in Złomrex S.A. totalling PLN 34 446 thousand. This liability, in its part related to capital instruments (options to own capital instruments), remaining under the control of Group, has been recognised as the reduction of equity at the amount of PLN 14 256 thousand (after deferred tax) and the remaining amount was recognised as other investments in the amount of PLN 13 513 thousand. The options included in assets are valued at cost less amortization, use or termination of rights to use own capital instruments.

Implementation of these agreements / resolutions may have an impact on the current proportion of shares held by particular shareholders wherein the quantification of this impact depends on the amount and the time in which the described operations would take place.

XXV. Information about the system of controlling employee action programmes

Neither the parent company, nor the subsidiary companies have employee action programmes.

XXVI. Information about the following:

a) The date of entering the agreement on the part of the issuer with the entity authorized to analyse or review the financial report or the consolidated financial statement, as well as the period in which the agreement was entered.

The parent company entered an agreement on 28 November 2014 with KPMG Audyt Sp. z o.o. Sp. k. with its headquarters in Warsaw on the audit of separate and consolidated financial statements for the year ended 31 December 2014.

- b) The remuneration of the entity authorized to analyse the financial statements paid out or due for the trading year in separate form for the following:
 - analysis of the annual financial statement,
 - other services rendered, including a review of the financial report,
 - tax advisory services,
 - other services.

The value of the agreement on the audit of separate and consolidated financial statements for the year ended 31 December 2014 amounts to 84,800 PLN net.

c) Information defined in lit. b should be also provided for the previous trading year

The auditor of the separate and the consolidated financial statements for the year ended 31 December 2013 was KPMG Audyt Sp. z o.o. Sp. k. with its headquarters in Warsaw. The value of the agreement on the audit of separate and consolidated financial statements for the year ended 31 December 2013 amounted to 116,100 PLN net.

The level of fixed assets decreased primarily due to valuation allowance raised against the claim owned from the Government of Croatia at the amount of EUR 10.0 million which resulted in appropriate reduction of value of non current receivables. Depreciation charges at the amount of PLN 35.1 million were partially offset by CAPEX at the amount of PLN 23.4 million minus PLN 17.6 million of the

disposed assets. The current assets increased by 12.7% as a result of the 20.5% increase of inventories and the enlargement of our cash position. The increase in inventories was caused primarily by higher stock of semi-products and finished products

Equity increased due to the positive result for the period and as a result of finalisation of Cognor's financial restructuring by which the indebtedness at the amount of EUR 25.0 million has been extended in the form of subordinated notes maturing in February 2021 convertible mandatorily by that date into Cognor's share capital (the Exchangeable Notes). These notes are now accounted for as equity. Interest bearing loans and borrowings net of cash went down by PLN 87.2 million primarily in connection with the completion of the financial restructuring. A portion of that increase was also driven by the FX result on the Group's indebtedness at the amount of pln (-) 12.5 million. The shift of liabilities from current to non-current resulted from the restructuring by which the maturity of majority of our debt has been postponed till February 2020.

XXVIII. Most important events that have a significant impact on the business activities and financial results of the capital Group issuer in the trading year or whose impact is possible in the upcoming years

- a) On 10 January 2013 the parent company, together with its subsidiary Ferrostal Łabędy Spółka z o.o. entered an agreement on cooperation with ZW Profil S.A. in Kraków. Consequently, commencing from 1 February 2013 Ferrostal Łabędy Sp. z o.o. became the exclusive supplier of steel billets to ZW Profil S.A. with the aim of their further processing and sale of goods produced from them. The agreement was originally extended to 31 December 2014, with a further extension to the end of 2015, due to the need to standardize rolling's contracts concluded with subsidiaries of Ferrostal Łabędy Sp. z o.o., is in the process of negotiations. In addition, in September 2013, Ferrostal Łabędy Sp. z o.o. bought a 33% stake in ZW Profil S.A. On 25 March 2014, Ferrostal Łabędy Sp. z o.o. (subsidiary) obtained the permission of the Office of Competition and Consumer Protection to take over the controlling package of shares of ZW Profil S.A. in Kraków. On 11 April 2014, Ferrostal Łabędy Sp. z o.o. purchased 2 000 shares in ZW Profil S.A. what representing in total 53.06% of the share capital of the company. As a result of subsequent purchases of shares in ZW Profil S.A. and the increase of shares, which represent 95.72% of the share capital of the company.
- b) On 4 February 2014, Cognor International Finance Plc, established in United Kingdom, (a direct subsidiary from Huta Stali Jakościowych S.A.) issued Senior Secured Notes and Exchangeable Notes. Within the framework of debt restructuring new Senior Secured Notes and Exchangeable Notes were received by the holders of 7-year Senior Secured Notes issued in 2007 by Złomrex International Finance S.A. with the maturity date of February 2014. The new issue was allocated to the holders in proportion to bonds that they owned.

The Senior Secured Notes have an aggregate principal amount of EUR 100 348 109.00, mature on February 1, 2020, interest will be payable semi-annually in arrears on February 1 and August 1 in each year and depend on the interest payment periods:

- 1st and 2nd years 7.5%
- 3rd year 10.0%
- 4th to 6th years 12.5%

The Senior Secured Notes are guaranteed by: PS Holdco Sp. z o.o., Odlewnia Metali Szopienice Sp. z o.o., ZW-Walcownia Bruzdowa Sp. z o.o., Huta Stali Jakościowych S.A., Ferrostal Łabędy Sp. z o.o., Złomrex Metal Sp. z o.o., Cognor Finanse Sp. z o.o. and Kapitał S.A.
